Vineyard

The boys gave a final push and the vineyard is done and ready for the new growing season. The past 5 months were filled with pruning and tying almost 60,000 plants. Now starts the fight with the weeds. We like to have a clear cultivation with no weeds in sight.

Sand Castle Building

The building is ready for the inspections and final approval for the occupational permit. Now is the time for a clean up around the building and the parking lot. We can not wait to move in, end the life in the trailers and start to be respectable.

Good News

The terrace is open and the views are even more spectacular since we cleared all the construction debris and poured the 24'x40' concrete pad. Come and enjoy!
