## The Vineyards

Wonderful, wonderful, wonderful! Practically no weeds, no diseases and sunny days. We know the year is not over and there is a long way from now until the grapes are harvested, but we enjoy this weather and it's positive effect on the wines and grapes.

The future vintages will also benefit from this miniature draught. The grapevines need to extend their root system deep into the rocks below in order to get water. This will provide additional minerals for years to come.

Additional bonus: vineyard workers are getting slimmer and good looking!
